

## Rebar Sales and Welded Wire Fabric

Purchase concrete reinforcing and accessories from Alvarez Industries LLC, a company with more than five years' experience in concrete reinforcement. We also carry epoxy coated, galvanized, and stainless steel reinforcing products.

The rebar holds the concrete in compression, and helps secure a better bond. Rebar reinforcement is usually in the form of carbon steel bars or wire.

Our welded wire fabric and reinforcing bars are made of low-carbon steel and meet ACI specifications. We provide welded wire fabric in 5'x10' sheets. Also ask about epoxy coated rebar (ASTM 706), galvanized welded wire fabric, and stainless steel welded fabric.
