

Quality Nameplate Inc

Metal Industry

Quality Name Plate is a leading producer of high-quality screen-printed and etched nameplates. The company's manufacturing facility can produce simple label or identification tags, as well as complex multicolor digital imaging. Quality Name Plate prints on a variety of substrates including polycarbonate, polyester, brass, stainless steel and aluminum.

Processes available through the company include digital offset, screen-printing, photo etching, chemical etching and short run routing. Whatever the industrial printing requirements are, Quality Name Plate offers custom services to meet those requirements.

The company is privately-held and maintains its corporate headquarters in Glastonbury, Conn. Quality Name Plates has been in business for more than 50 years. [less](#)
