

Every Healthcare Initiative Starts with Data.

Federal agencies and contractors need to share and/or consume timely, quality data to support initiatives that positively impact health status, costs and service experience. PNT Data helps customers that want an alternative to internally developed and managed solutions that solves the constant complexities associated with healthcare data.

PNT Data provides modular, managed services that enable the acquisition, quality control and distribution of healthcare data between sources and recipients to support data-driven initiatives.

Managed Services that Prioritize Results

- ▶ Accelerate time to execution on delivering data
- ▶ Reduce friction in data collaboration
- ▶ Simplify engagement and implementation
- ▶ Eliminate the need for new equipment and additional people
- ▶ Facilitate regulatory compliance
- ▶ Enhance data quality
- ▶ Provide predictable costs

Data Complexities

- ▶ Numerous sources
- ▶ Disparate interfaces
- ▶ Inconsistent formats & standards
- ▶ Data normalization issues
- ▶ Changing requirements and mandates
- ▶ Costly data integration
- ▶ Lengthy development cycles
- ▶ Missing content
- ▶ Limited transparency
- ▶ Aging systems
- ▶ Connectivity issues

Areas of Expertise

- ▶ ETL (Extract, Transform, Load)
- ▶ Real-time eligibility and benefits
- ▶ ANSI/X12 transactions
- ▶ HL7 (V2, V3, V4) Records
- ▶ Data interoperability
- ▶ Data exchange
- ▶ Data management
- ▶ Data interfaces
- ▶ Data transformation
- ▶ Data validation
- ▶ Data enrichment
- ▶ Data aggregation and integration
- ▶ Data parsing and editing
- ▶ Data transparency and reporting
- ▶ Hosting Services
- ▶ Healthcare regulatory compliance
