Materials

BAMBOO

- Our Yumi bamboo products are made from natural bamboo fibers and some organic materials such as rice husks. All of the biologically based materials are certified to be free of GMO materials and safe for use with foods, according to the US Food and Drug Administration.
- The bamboo used for these durable, yet attractive, colorful and versatile Yumi bamboo products is harvested from farmed bamboo forests and does not affect the panda food source.
- The ingredient formulas and manufacturing processes are protected by international patents.
- Yumi bamboo products are melamine and petroleum free.
- Reusable and Dishwasher safe

STARCH BASED PRODUCTS

- Made with biologically based, environmentally friendly, sustainable and renewable non-GMO plant materials.
- Made with proprietary formulas and processes and have the industry leading tolerance for working temperature, strength and resistance to stains, cutting or tearing.
- Tested to be microwave safe and meet all food contact safety regulations of the US Food and Drug Administration, and are water and grease resistant as well as crack and cut resistant.
- Certified to be compostable meeting the European EN 13432 industrial standard and ASTM D6400 the American standard for biodegradation.

OUR STORY

Yumi EcoSolutions is an environmentally conscious manufacturer of innovative, premium quality products made from sustainable and renewable bio-materials.

OUR VALUES

Yumi EcoSolutions is an innovator in the eco friendly tabletop and housewares industry.

We are dedicated to offering high quality, innovative and well designed eco products at affordable prices.
